

Jacob Good

Software Engineer

Competent software engineer with a curiosity for AI, data analytics, and user experience. Proven track record of creating front and back end web applications. I focus on team results. As an Academic Director I implemented new tech initiatives and led a group that designed an ESL curriculum that improved students' English levels by one full CEFR level.

Work Experience:

Freelance Web Developer — 2021 - Present

- Website developer for businesses

Software Engineer at 100Devs — 2022 - Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structures full stack web applications.

Business and Computer Science Teacher - 2018 - Present

- Developed Python, HTML, CSS, and JavaScript courses. Projects included hangman, whack-a-mole, rock-paper-scissors, and data visualization. High School Business, Economics and Science Teacher.

Director, Math and Science Teacher - 2013 - 2018

- Harvard's Project Zero coordinator - Led a team of 25 teachers to successfully complete a global competence training course

Projects:

You Don't Know JS (full code) (live)

- Using HTML, CSS, and JavaScript I built a multiple choice quiz and deployed it to Netlify. Focused on helping mentor new web developers by testing their knowledge of HTML, CSS, and JavaScript.

Titan Fitness (full code) (live)

- Designed and deployed a website for a client that runs a gym in Philadelphia. HTML, CSS, and JavaScript stack.

Business Location Analysis (report) (full code)

- Business analysis for a new business location compiled population, average income, and housing prices for a detailed data visualization of Philadelphia. Analysis included k-means clustering.

Other Projects - (full code links and reports on website)

- The Liquor Company, Battle-Spell, A Surefire Path to the Olympic Games, Rental Property Calculator, Graham Number Stock Price Analysis, Your Dad Jokes, App Components for Days, Find Your Dog, and many more

Education:

M. Ed. - American College of Education, Curriculum, 2015 - 2017

B.Ed. - West Chester University of Pennsylvania, Biology, 2006 - 2010
