

Jacob Good

Software Engineer

I am a life long learner with 11 years of professional experience. I focus on team results. As an Academic Director I led a group that designed a standardized ESL curriculum and exam that improved students' English levels by a one full CEFR level. This team also finished a two-year Harvard Education Global Competence program with 100% completion rate.

Projects:

HTML, CSS, JavaScript Quiz (full code) (live)

- Using HTML, CSS, and JavaScript I built a multiple choice quiz and deployed to Netlify. As part of my 100Devs bootcamp, I wanted to help other students study and practice my skills too

Titan Fitness Webpage (full code) (live)

- Designed and deployed a website for a client that runs a gym in Philadelphia. Use an HTML, CSS, and JavaScript stack.

New Business Location Analysis (report) (full code)

- Produced a report and analysis for a new business location. Compiled population, average income, and housing prices for a detailed data visualization of Philadelphia. Analysis included k-means clustering.

Bicycle Sharing Data Analysis (click for full code)

- Used R programming language to produce a report for how different users use bicycle sharing. Data collected had over 3.5 million annual riders and assembled data visualizations in a clear presentation.

Education and Certificates:

University of Michigan - Statistics for Python Specialization, 2021

Google - Data Analytics Professional Certificate, 2021

IBM - Applied Data Science Specialization, March 2021

American College of Education - M.Ed. Curriculum, 2015 - 2017

West Chester University of Pennsylvania — B.Ed. Biology, 2006 - 2010

Experience:

Business and Computer Science Teacher, China — 2018 - Present

- Developed Python, HTML, CSS, and JavaScript courses. Projects included hangman, whack-a-mole, rock-paper-scissors, and data visualization. High School Business, Economics and Science Teacher.

Director, Math and Science Teacher, China — 2013 - 2018

- Harvard's Project Zero coordinator - Led a team of 25 teachers to successfully complete a global competence training course
